## *Environmental Song*

### ***Wake up to reality by Alicia Grant***

[https://www.youtube.com/watch?v=tYp2\\_tcnkAc](https://www.youtube.com/watch?v=tYp2_tcnkAc)

- Read the following lyrics from the song and talk to your partner:

a. *“Harmony and balance existed long ago”*. **Why?**

All living creatures lived in the world in harmony. They shared nature, keeping a balance between their needs and what nature offered.

b. *“Man has been unkind”*. **Why?**

Because the man did not respect the laws of nature and created serious problems in the environment (page 4 in the PPT).

c. *“To see beyond the wealth”*. **What is wealth and what is its relation to earth?**

We have two types of wealth: man-made and natural wealth.

d. *“The Earth is fading fast”*. **Why? What’s the illness?**

Air pollution, noise pollution, water/marine pollution, land pollution, littering, domestic sewage.

e. *“Industries advance, people progress,  
we all take things for granted”*.

**What things do we take for granted?**

That nature will find a way to cure the illness.

g. *“So take a stand and do something,  
it’s time to make a change”*.

**What can ordinary people do?**

Free suggestions / brainstorming previous knowledge, watching the video .
